Dear Bob,

Here's your Christmas present from western New York: an up-dated list of the Roudabush Cobblestone Survey compiled in the late 1970s. Dr. Martin and Sheila Wolfish from Toronto, Ontario have been pursuing this project at their own expense/time. They've been to our Wenrich Library to see the original survey materials.

Enclosed is the December letter and attached list that we received with updated information about the cobblestone buildings they've photographed, including those that have been demolished or modified. They have also included ADDITIONAL cobblestone buildings (not included in Roudabush survey) that they've found while on the road doing photography. They put this information is on computer disc, a copy of which I have here at the Landmark Society.

We are delighted that the Wolfishes have undertaken this project - as its costs/time requirements, etc. made it prohibitive for us, the Cobblestone Society or SHPO to do. If you have any questions, give a call - and HAPPY HOLIDAYS!

Sincerely,

Cynthia Howk,
Architectural
Research Coordinator
