

COBBLESTONE BUILDINGS IN NEW YORK STATE

Robert A. Roudabush completed a survey of Cobblestone Buildings in New York State, started in March 1976.

This survey is deposited with the Landmark Society of Western New York Inc., in Rochester NY

My wife and I have similar interests as Mr. Roudabush, and began looking for these structures in 1985. We were most grateful to obtain Mr. Roudabush's survey and catalogue in assisting us to find and photograph Cobblestones.

We have completed this task in June 1999.

We have discovered very few errors, but did find structures, not previously listed and others that have "disappeared, probably having been torn down since the original survey. The following, is the original Roudabush catalogue listings with our amendments. It is hoped that this will be of use to future researchers.

ALBANY COUNTY

Add: Receiving Vault Prospect Hill Cemetery, Guilderland

CAYUGA COUNTY
