

5. — WILLIAM HOUSE HOUSE

William House owns this house on Van Winkle Road. This house has three fire places. It has a numereous number of cellar windows. Since renovation with new mortar this house seems to be in good condition.

**STONES:** Stones range in size  $2\frac{1}{2}$  x 2 to 7 x 3 inches. Mostly lake stones, varying in color. Fairly consistant in size on each side.

**JOINTS:** Both horizontal and vertical joints are V's.

**MORTAR:** Three sides have been recently re-mortared. Mortar is two inches between rows of stone.

**QUOINS:** Quoins were brick, 8 x 2 x 4 inches and five to a quoin, which are usually  $12 \times 16\frac{1}{2} \times 8$  inches.

**LINTELS:** Wooden lintels are newly painted white.
