

// - WYCHMERE FARM, ONTARIO

This 100 years old house on Lake Road is occupied by Clifford Smith and owned by Mrs. Motley who bought it from the Brewers about 25 years ago. The corner pilasters are very unusual as well as attractive. The boards used for the Pilasters are $1\frac{1}{2}$ inches thick.

STONES: The stones are red lake measuring $1\frac{1}{2}$ -3 x $1\frac{1}{2}$ inches.

JOINTS: The horizontal V is $\frac{1}{2}$ to $\frac{3}{4}$ inches and pyramids are the vertical joints.

MORTAR: The mortar is red, fine, and well preserved.

LINTELS: The lintels are uncooled sandstone blocks.

SIDES: Larger, lake stones of all colors were used here.
