

7.- JOBSE HOUSE, ONTARIO

Charles Van Enwyck owns this house on the East Town Line Road, Ontario. He is now 65 and has lived there since he was a year and a half old. Mrs. Van Enwyck's father who would be 100 years old could remember this as an old house even when he was a boy. Alfred Truex owned the house before Van Enwyck and Teats before that.

STONES: The cobblestones are the rounded lake washed stones, selected for size, but all the various colors were used.

The stones are  $2-2\frac{1}{4}$  x  $1\frac{1}{2}$ -3 inches.

JOINTS: The joints are a wide V and rather wavy. The vertical joints are pyramidal.

QUOINS: The quoins are alternately red and gray sandstone.
