"... The estate of the late Dr Dickson follows. It is today just as he left it on his death in 1874. The large barn was erected for the crops raised on the 15 acres lying back of the road. The stone building next was built by the doctor for an office, with a story above for a select school. It would be easier to name the kinds of business that have not been in this building than those that have. At present (1893) from the 2nd story, Clayton J Earless publishes his *Rose Farmer's Counsel and Times*. The house was built more than 50 years ago, but meantime it has undergone extensive repairs and changes. ... The estate is still held in trust and the house is now occupied by Dr J.E. Bradshaw ..."

The cement walk is finished around the square now. The west side of Main street is being laid in front of the town hall and Dr. J. E. Bradshaw's and N.H. Closs's.

The town has purchased the barn on Main street belonging to Dr J. E. Bradshaw, and has moved it back near the town hall on land owned by the town, where it will be repaired and used to house the road machinery. The removal of the barn makes a great improvement in Main street.

Bradshaw place erected many years ago by Dr John Dickson for his office. It has been out of repair for a number of years and its removal will add materially to the appearance of Main street."
