No. 26

July 4, 1979

At a time in our country's history when some are discontent, dispirited, dissatisfied, disenchanting, displeased, disgusted, discombobulated and with disestablishmentarians on many issues it seems sensible to reflect on our past. A more positive look at our system might render us quite well off. The following is a selection of news headlines which appeared in local papers during 1945.

Peruse this collection.....and on this July 4th let us discontinue our disgruntling discord in America and display discreet Patriotism.
